

# 707 old santa fe trail

MLS #201603601 \$725,000

The historic H.H. Dorman home was built in the early 1900s and is one of the best preserved examples of the Craftsman-style in New Mexico. Lovingly restored to its Santa Fe elegance by the owners, this multi-level home provides an ideal location for a home or business and is zoned AC RC5 for limited retail ventures (must be confirmed with the city of Santa Fe). With three bedrooms and two bathrooms this wonderful home features built-in cabinets, wood beams and wood floors throughout. The updated, eat-in kitchen is as inviting as the living room with its large, brick fireplace. As a bonus there is a light-filled basement, perfect for a den or family room. The compound includes a storage room, carport, and endless landscaping possibilities. This is a delightful piece of history full of charm and available for new owners.
